COMMUNITY AWARENESS

Has your Club/Affiliate advised you
of the dangers of Hepatitis B?

If not, check the availability of
vaccination through your local doctor.

All participants in body contact sports
should be made aware of this disease.

WHY IS THE DRUG OFFENSIVE AT THE SOCCER?

The National Campaign Against Drug Abuse is a major sponsor of Australian Soccer because sport is important to young Australians.

We want to bring the message to young people that success in sporting activity at the highest levels is not compatible with drug abuse, including smoking cigarettes.

Young men and women across Australia who see Soccer matches televised or who read about them in the press will see the striving, the achievements and the fun of participation in sport – without the abuse of drugs.

SMOKING

WHO NEEDS IT?

DRU/052
